### **ABOUT**

## **MAN CAVE HEALTH**

Man Cave Health is a non-profit organization focused on breaking the silence surrounding mens' health issues. Man Cave Health's mission is to raise funds to construct, equip, staff, and operate Man Cave facilities in cities across the country; and offer free health fairs and cancer screening events throughout the year to those in need. Man Cave Health's mission provides both an opportunity for resources and refuge for men to get the latest in education, diagnosis, and treatment.

Man Cave Health is committed to changing the landscape of men's health and has done so, throughout the pandemic, by hosting weekly "Virtual Support Groups." These support groups have been a safe space for men to discuss and learn about different mens' health issues, going beyond just prostate cancer.

Man Cave Health is an IRS recognized 501(c)3 nonprofit organization, TAX ID 30-1046542

## **MILANA FAMILY FOUNDATION**

Since its inception in 2008, The Milana Family Foundation has raised money and awareness for various charities throughout the country. In 2018, The Milana Family Foundation launched its own initiative – Man Cave Health, whose mission is to educate men about prostate health and encourage men to play a more active role in their healthcare journey.

Prostate cancer affects approximately 1 in 9 men in their lifetime, but one diagnosis greatly impacted the Milana family. In April of 2016, Tom Milana, Jr. was told he had prostate cancer. As Tom navigated his way from diagnosis back to wellness, he increasingly saw the need for more awareness about men's health issues, and Man Cave Health was born. All proceeds raised by The Milana Family Foundation will be used in support of funding Man Cave Health

The Milana Family Foundation is recognized by the IRS was a tax- exempt organization, Tax ID 36-4620168
